Overview of Agenda (5 minutes)

Advice on Data Elements (20 minutes)

- Any further advice on elements to add or remove?

Advice on amount of data to acquire (60 minutes)

1. Should we strive to get all data elements for every incident?
2. What are the circumstances where we would strive to get all the elements?
3. Does that mean that all the other incidents would be a lesser set of elements? If no, clarify.
4. What would be the bare amount of information that would be useful – provide in general categories of elements vs specific elements)?

Advice on Database/System (30 minutes)

1. What databases/systems might be useful for OP to know about prior to commencing the IT portion of our effort?
